(Talking) Verse 1

The time has come
To relieve that pain
Which will better for me
But not so enjoyable for all of you

Verse 2

On the eight day
God created Mankind
Why was having such a bad day
Why did he create all of you normal
And forget so many important parts of me
He made the teeth that I swallowed
The ear that was ripped from my skull
A face that know longer exists
Deep inside you are merely a mirror image
Of all of my atrocities
The ugliness that exists outside
Lives inside everyone of you
Destruction can be beautiful

Verse 3

Leave the light on
I'm coming home
