Call it quits, call it off
A cycle that never stops
Night and day, I'm awake
Replaying all my mistakes
Back and forth, I'm a wreck
Five days and I haven't slept
Calm my nerves with a prayer
A cycle I can't repair
It doesn't matter how far I go
(You know you wanna)
You got me feeling like I'll turn around
(You know you wanna)
I'm back with my late night confessions
Full circle, back sliders
And you're counting on the worst in me
I'm sick to my stomach about this
One sided devotion
And you're hoping for the best in me
Call it quits, call it off
We've seen this coming for months
Feel the shock as I walk
Rejoicing in what I've lost
Stay away, stay away
Keep you in my darker days
Calm your nerves, with a prayer
A cycle I can't repair
