Every night I'm wine up right
I've been seeing next to me close my eyes I swear I
hear you breathe
I could be in other space know you're always find a
way, a way to get to me

I know my heart it's never too far up by keep any closer
Our love is out of the... this feel
Even the wall of the... we... here

[Chorus:]

Back to me you always run, back to you I get escape
the...
Well make me pullin us together
Back to me you always run you and me get escape
the...
Stars could lie and stick together ooh ooh ooh

Feel explosions on my... do we...
... fire in me radiance
All attraction can be tuned, tight away to...
Could lose if you want it too

I know my heart it's never too far up by keep any closer

Our love is out of the... this feel
Even the wall of the... we... here

[Chorus:]

Back to me you always run, back to you I get escape
the...
Well make me pullin us together
Back to me you always run you and me get escape
the...
Stars could lie and stick together ooh ooh ooh

Stars could lie and stick together ooh ooh ooh
Part of you in my mind
Body electrified that come alive
So magnetic I can't deny
Destined me in it's way forever tight.

[Chorus:]

Back to me you always run, back to you I get escape
the...

Well make me pullin us together

Back to me you always run you and me get escape
the...

Stars could lie and stick together ooh ooh ooh
