### "The same love"

Visit "[The same love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You and me, we had a love that was forever  
That's what I thought and I can still remember  
Words we said, we said we'd always be together  
Then why am I alone tonight?

Something changed  
And now, you just don't feel the same  
I'll never understand

CHORUS:  
How can the same love  
That made me so happy  
Make me so sad?  
I don't understand  
How could the same eyes  
That used to be laughing  
Cry in the night?  
It doesn't seem right at all

Remembering the nights we held onto each other,  
The times you told me you'd never love another  
(Remember when) I was all you ever needed  
Where are you when I need you now?

Sunny days  
Have left me standing in the rain (standing in the rain)  
Can somebody tell me how?

CHORUS

Was my heart so blind I couldn't see?  
Was I a fool to believe the promises you made to me?  
What went wrong?  
Oh, what went wrong?

INSTRUMENTAL BRIDGE

CHORUS  
(repeat and fade out)
