Ooooooooooh, ooooooooooh yeah

I've never known someone before
Who feels the way you do
All my dreams somehow came true with you
And I've never wanted someone more
As much as I want you
Love will last forever, it's true, with you

I will always fear awaking in the night
And not having you by my side

(It's not a dream) We all need love and understanding
(We must break thru) And make a love that's
everlasting
We'll be as one, I can see it in your eyes

CHORUS:

When I looked at him, and he turned to me,
He said, "You're more than a friend to love, to need"
When I looked at him, and he held me so tight,
When I looked at him, it's love eternally

They say I should be acting cool
They tell me I'm a fool
But they don't see the things I see in you

We cannot forget the changes we've been thru
I could never love someone new

(Don't say goodbye) It would tear in two my heart
(The time is right) And we could never be apart
We'll be as one, I can see it in your eyes

CHORUS

SAXOPHONE SOLO

(It's not a dream) We all need love and understanding
(We must break thru) And make a love that's
everlasting

We'll be as one, I can see it in your eyes

CHORUS

(repeat and fade out)
