(Hogan)

What the hell do ya think you're doin?  
Do you think it's me your screwin?  
Stupidity can go a long way these days.....

This life took an intermission  
Came back with a few scenes missin'  
But I think you'll like the way this story ends today

I know I know, the good guy always gets the girl  
I know I know, the bad guy always wants the world  
I know I know, while you were treating your girl bad  
She said , ..... I'm the best she's ever had

Have you met my friend Karma? - she's a bitch  
She'll make things happen that you never wished  
But what goes around will come around,  
What goes around will come around

Every time I give , is a time you take  
Every love you had - is a brand new hate  
What goes around, will come around ,  
What goes around, will come around

What the hell do ya think you're sayin ?  
Do you think it's a game you're playing?  
Ok, let see what happens in the next round

Gentlemen come place your bets!  
Here's a drink to no regrets  
Cause this poor bastard gonna get real down now

I know I know - ya gotta play the hand your dealt  
I know I know - just think how you made the others feel  
I know I know - you didn't care cause it was fun  
Good game- such a shame you lost it all and now I've  
won

Have you met my friend Karma? - she's a bitch  
She'll make things happen that you never wished

But what goes around will come around,  
What goes around will come around

Every time I give , is a time you take  
Every love you had - is a brand new hate  
What goes around, will come around ,  
What goes around, will come around

You live you life hating everyone who passed you by  
Now you're all alone and you wonder why !  
Every chance you passed, was a chance I had to take  
Now your whole life is just one mistake  
Every one you stepped on will bring you down  
Every smile you took will become your frown  
You're a small time crook in a crooked town

What goes around , will come around.
