Sister
"Spit on me"

Mayday Mayday get away
and get back out of my way
you cant face me
you cant turn your back
high class romeo you will
crash into your grave
one way stand in line and follow like a slave
you piece of shit unleash your desire
(stand in our way)
and light my fire
spit on me
youre nothin but a joke to me
spit you make me sick
come on spit on spit on me keep trying but
youll never see spit on me i love what i see
mayday mayday and the game
you aint got it takes to stay in hell
youre going down
fucked up got to go
im the one you call insane
leave me get lost
im diggin my own grave
my hand are tied
just try to degrade me
youl face the fact
that you cant beat me
