lock your door and  
shut your mouth  
curse the night  
when it comes around  
soon they will be out of play  
so please stay awake  
claws jaws hungry eyes  
put you to death by five  
peel the skin from  
your broken bones  
so don't go out alone  
we're wolves that's  
what we are  
we know just what we want  
werewolves werewolves  
on blackstreet  
we are werewolves werewolves on blackstreet  
that's what we are  
tonight you'll meet  
your bitter end  
on these streets you won't  
stand a chance  
we've been banned from  
the gates of hell  
the moon is our only friend  
we'll make it end  
you won't stand a chance  
on these streers of hell  
you will wake up dead
