How long have you been frightened for,
You've been frightened for a long, long time
Your eyes can only idolize, make a sacrifice
Pretend you're good and blind

[Chorus]

There's no alter way around this heart of mine
No stain glass goes to block sunshine
No effigies or idols, no red wine
To bind me to the ground
When the angels fly around

How long have you been fighting for?
Only to find that you are that you are fighting the wrong
side
I'll find I'll find what's hidden here
I'll find your darkest hidden place, make it disappear

[Chorus]

There's no alter way around this heart of mine
No stain glass goes to block sunshine
No effigies or idols, no red wine
To bind me to the ground
When the angels fly around

I will fly, when I die
I will fly, when I die
I will fly, when I die
I will fly, when I die.
