We are not evil, we are not evil
We are not evil, we are not evil
We are not evil, we are not evil
We are not evil, we are not evil
We are not evil, we are not unkind
We are good and godly, watch us fold the blind
We can smell the devil hiding in the small town
Toying with the idol, pushing dirt around
We are not evil

We can hear the ...sleeping with the demons
We can hear em howling cross the dead and veil
We fight them with fire, duck them underwater
Swing them from the scaffold, turn their faces pale
Someone's gotta guard you, watch you when you
resting
We will keep a vigil, protect you from the dark
A dark with the cows and kittling with the pole cap
Saw him dance around town, fluming out the joy

We can hear the ...sleeping with the demons
We can hear em howling cross the dead and veil
We fight them with fire, duck them underwater
Swing them from the scaffold, turn their faces pale
We are not evil, we are not evil
We are not evil, we are not evil
We are not evil.
