The sun goes down - I look up to the sky
Behind the scenes they plan a secret lie
I hear a voice - a nightmare crossed my mind
Â 'Cause the humans are like hypnotized and blind
They believe what they see
And theyÂ 've lost every doubt
But the greatest tragedy
Is to following the crowd

Transylvanian night
Oh itÂ 's the last fight of the vampires
Come on and take care
But never be scared about the phantoms of the world
Transylvanian night
Oh Bella black dressed men had played with fire
Babe itÂ 's not too late
IÂ 'll never hesitate to save this life for you

Babe donÂ 't close your eyes Â 'til the break of day
ItÂ 's another silly game I have to say
IÂ 'll never give it up to win the fight against the
vampires

A full moon night - I hear the steeple bell
And the ship of fools is on the way to hell
The anchor is in sight
For a new trip to bane
Love me Â 'til the morning light
If I dream this dream again
