i  
i feel like laughing  
and hey  
i feel like laughing at you again  
cause i  
i feel like laughing  
since i left you  
since i left you i

i said i've been walking with my head  
up in the clouds  
so Afraid  
until you showed me how  
well i woke up with the dream  
still in my head  
resting on the words i heard  
cause peaceful people on the inside  
well it seems that they have certain glOW  
and those angry people on the outside  
well it seems that their head is going  
their head is going to explode

and i  
i feel like laughing  
And hey  
i feel like laughing at you again  
cause i  
i feel liKe laughing  
since i left you  
since i left you i  
i said why can't everybody get along  
we waste far too much time  
putting others down  
well you'll never seem to fill  
that empty hole  
that's opened up inside your soul  
cause pEaceful people on the inside  
well it seems that they have a certain glow  
and those angry people on the outside  
well it seems that their head is going  
their head is going to explode

and i  
i feel like laughiNg  
and hey  
i feel like laughing at you again  
cause I  
i feel like laughing  
since i left you  
since i left you i  
why can't i feel anything  
i've tried  
but i caN't cry about it i  
i feel like laughinG  
since i left you  
since i left you i
