(Steve Summers)

well you act like i should know you
yes you act like i should care
abrasive in your actions
throwing your style everywhere
white trash, low cash thieving lying ignorance
one time, last time
you are not my fucking friend
no you are not my friend
well you act like i should know you
yes you act like i should care

abrasive in your actions
throwing your style everywhere
white trash, low cash thieving lying ignorance
one time, last time
you are not my fucking friend
no you are not my friend
i can see you are heading right straight into nothing
no you are not my friend
no you are not my friend
