My life, all the things that I've achieved  
So much pride and full of dreams  
There's no better way to live  
But I need you there for me  
More than anything else that I'll ever need

Sometimes when I'm alone  
I throw my hands upon the sky  
To the heavens up above  
I pray that you'd be mine forever  
I will do anything I won't miss the chance

So I will go  
May it be a journey to corners of the world?  
If I had a pair of wings  
Then nothing can stop me now  
As I lift from the ground

If I could just fly away  
To the place I wanna stay  
And with you is where I wanna spend the rest of my  
days  
If I could just fly away  
I don't care how long it takes  
Forever doesn't seem so long  
Because I know one day I'll be with you
