You talk talk about nothing  
And nothing ever gets done  
You're choked up about something  
But you're never on the run  
Talk talk talk  
Talking 'bout what?  
Mad mad mad  
Shooting off your mouth  
Walk walk walk  
Walking 'round in circles  
But nothing ever seems to happen  
Shut it  
Shut it up  
Shut it down

We've got no time for your revolution  
It's a lot of hot air and it leaves me so cold  
You're all a bunch of jerks in cool seclusion  
You never broke a rule 'cause you never got soul

How much now do you care  
Really care about your cause?  
You don't care at all  
You're just spray painting walls  
You won't go down at all  
You're packing up and leaving town  
Shut it  
Shut it up  
Shut it down

No you don't care at all  
No you don't care at all  
You're standing on graffiti wall  
Trying to act so hard like somebody you saw  
Standing up and standing tall  
But that's not you now, is it?  
'cause you don't care at all  
You're in another club  
You're in another clique
