"Fight The System"

Visit "[Fight The System](#)" on MotoLyrics.com

Fight. There's a battle going on, we're on the front lines. The evil grows but we carry on. We wage war against this system, this system that only seeks to destroy. Now we're in and there's no turning back. They push us down now we're pushing back. We've gotta fight the system. We've gotta fight, we gotta. We've gotta fight the system. Cause if we don't, we're only giving up the things we fought for when we began. Fight the system, this system with conviction and stand in Christ in the end. Fight the system. And we won't give up till they give in.
