

Squad Five-O "Time Goes By"

Visit "[Time Goes By](#)" on MotoLyrics.com

Thoughts roam my mind as headlights shine
Piercing the darkness around
The wheels roll on like the days of my life
Into the future ahead

I watch the cars go past as they go the other way
Sometimes my thoughts follow then back into
yesterday
Behind me lies an old and familiar place
Ahead uncertainty is starring me right in the face

Sing out loud to stay awake as time goes by
I watch the night turn into day and time goes by
I've turn the corner into another world a different place
in time
Like a vapor on the road, so are those days of our lives

Four kids in a van, on a mission from God
Driving from state to state guided by the road
Behind us lies an old and familiar place
Ahead uncertainty is starring me right in the face

Another month out on the road as time goes by
Another month until the road leads home and time
goes by
And time goes by, I think of you
