Every dog will have its day  
That's what people used to say  
Nowadays that's not the case  
There's a fat cat runs the place

Cat's away, the rats will surely go down  
Listen up 'cause I'm tellin' you the low down  
What does it matter if he keeps getting fatter  
What does it matter if fat cat's getting fatter?

Fat cat keeps getting fatter

He comes in 'most every night  
Wakes me up before daylight  
All around that house of mine  
It's pit pat, pit pat, pit pat, pit pat all the time

Cat's away, the rats will surely go down  
Listen up 'cause I'm tellin' you the low down  
What does it matter if he keeps getting fatter  
What does it matter that cat keeps getting fatter

Fat cat keeps getting fatter  
Fat cat keeps getting fatter  
Fat cat keeps getting fatter
