There she goes
See she's walking away
Left me alone here
Where I'm at
Nothing to do
Nothing I can say
Won't somebody tell me
The right words
to make her stay
It's hard to make it all alone
This world is such
an empty place
Cause someday
she'll see
It's not easy to find
A love like
she's throwing away
Then maby
next time
She won't act
so cruel

And maby she'll be kind
To the heart of a fool
See she was the only one
Who made me feel like a man
She took the darkness from my night
Emptiness out of my days
There's got to be a way somehow
To stop her right there in her tracks
Stop and make her turn around
Cause she belongs only with me
Cause someday she'll see
It's not easy to find
A love like she's throwing away
Maybe next time
she won't act so cruel
And maby she'll be kind
To the heart of a fool
Now all of the promises made
I must have the heart of a fool
Why I take the abuse
And it just ain't no use
I keep going back for more
And there she goes
See she's walking away
Left me alone here where I'm at

With only one thing I can say

Now someday she'll see

it's not easy to find

A love like

she's throwing away

And maby next time

she won't act so cruel

Maybe she'll be kind

To the heart of this fool

(repeat 1 x)

Maybe, maybe next time

she won't act so cruel

Maybe she'll be kind

To the heart of this fool

Maybe next time

she won't act so cruel

Maybe she'll be kind

To the heart of this fool

And maybe, maybe next time
