"All Fall Down"

I can be as humble as the next guy
Or i can blink and make you crumble from the inside
I can be every nasty thing you ever dreamt a man could
be
Cause they all fall down
Cause they all fall down
I can make you see the beauty of a new sun
Or i can be the source of your desparation
I can be every nasty thing you ever dreamt a man could
be
Cause they all fall down
Cause they all fall down
Jaded, faded im the type you hated
Haunted, taunted i'm what you've always wanted
Yeah, yeah
I'm what you've always wanted
You can turn away like you don't even see me
Yet you can smile and act like you've got something i
need
But every night you go home alone
And dream about being underneath me!
All fall down, cause they all fall down
Jaded, faded i'm the type you hated
Haunted, taunted i'm what you've always wanted
Yeah, yeah i'm what you've always wanted
Can't you see through ths disguise
And find the little boy inside
I'm afraid of fallin
Love is pain and now she's calling
And she's
Jaded, faded i'm the type you hated
Haunted, taunted i'm what you've always wanted
Yeah, yeah i'm what you've always wanted
All fall down
All fall down
All fall down
All fall down
