Make this moment last forever and a day
Watching you drive by, not letting you drive away
Can't you see me trying to wave you down tonight
'Cause I need to see you one more time

You'll be there in my mind, in my dreams you can hide
And every night I'm gonna bring you back to life
There in my mind, an Angel bathed in light
Telling me every thing's gonna be alright if I can just
fall asleep tonight

Lonely is the feeling I can't comprehend
So I'm skipping through the last page to see how this
will end
Can't you see me trying to wave you down tonight
'Cause I need to see you one more time

You'll be there in my mind, in my dreams you can hide
And every night I'm gonna bring you back to life
There in my mind, an Angel bathed in light
Telling me every thing's gonna be alright

Have you ever felt so helpless
When the walls built to protect us, suddenly are gone
And you hate everything that's breathing
The life you're used to cheating, has finally caught on

You'll be there in my mind, in my dreams you can hide
And every night I'm gonna bring you back to life
There in my mind, standing just to my right
Telling me every thing's gonna be alright yeah every
thing's gonna be alright
Oh I know every thing's gonna be alright if I can just fall
asleep
