You like when we go fast  
So my foot's on the brake  
Used to be my girl  
But now you're just my worst mistake  
You don't see it, not a subtle change  
Makes me laugh you turned into a cliché

Everytime you told me  
That we'd never say goodbye... was a lie  
You knew what to expect from me  
Just like a hit of ecstasy  
You made me high

You think I still want you  
After all you put me through  
You think I can't walk away  
And find someone better for me  
Just take your overactive ego  
Shrink it down like a mosquito  
Baby lovin you was such a chore  
Til I got bored  
Now I don't think about you anymore

From the first time I saw you naked  
I could see the future  
I knew that my world was shaken  
Lost my innocence then I lost my mind  
Thank god now I see  
Cause with you I must have been blind cause

Everytime you told me  
That we'd never say goodbye... was a lie  
Just like a common criminal  
You gave me just the minimal to  
Keep me hanging on inside

Now that I can breathe  
I'm done with therapy  
It's your turn to burn  
Covered up in lies  
And still so full of pride  
I hope you choke

Cause its the sex I'll miss the most
