Sing The Noises by Yasume

Subject: Song parody: thesis

(Lord knows where this comes from! but it's fun)  
[ tune of "I've been working on the Railroad" ]

(tune: I've been working on the railroad)

I've been working on my thesis  
19 hours a day ...  
I've been working on my thesis  
Wasting all my youth away ...  
I hear my committee mumbling  
questions large and small  
Can't you hear them all a-shouting  
"Publish by the fall!"

Data won't you show  
Data won't you show  
Data won't you show something new-ew-ew  
Data won't you show  
Data won't you show  
Data won't you show something new.

Someone's been fiddling with my data  
Someone's been feeling pretty blue-oo-oo  
Someone's been playing with the numbers  
Now they show something new!

Fee-fie fiddle away  
Fee-fie fudge fudge fay  
Fee-fie twiddle tweak twee  
I'll get my Ph.D.!  
.... author unknown
