# Translation #

[Verse 1]

My heart feels like it's going to burst  
Don't stop it  
No-one can stop me, yeah

When the music starts on stage  
Can't stop it  
Oh oh  
It's the beginning baby

Please stand up now  
Feel the rough breathing  
Oh call me  
So that I can hear

I will show myself off until the heart has burned  
So be crazy for me

Cause I'm back  
Even if I fall back now  
Even if I go out of breath  
I won't stop  
I don't lose  
So that the feeling will be real

You are the one of my life  
For you  
My destiny

[RAP] ~

[Verse 2]

Stand by my side  
Feel everything that I have  
Stay still at this moment  
So that I can hear

I will show myself off until the heart has burned  
So be crazy for me

Cause I'm back  
Even if I fall back now  
Even if I go out of breath  
I won't stop  
I don't lose  
So that the feeling will be real  
You are the one of my life  
For you  
My destiny

Don't be afraid, believe in me  
Let's soar up  
Because this isn't the end

Cause I'm back  
Even if I fall back now  
Even if I go out of breath  
I won't stop  
I don't lose  
So that the feeling will be real  
You are the one of my life  
For you  
My destiny

I just, I'm going to give myself in to the rhythm  
As I move naturally  
I'm crazy for you  
When the light goes off  
I'll call you so that I won't lose the light  
My destiny

My destiny
