I
I wonder why I wonder why
I've
I've come undone
O.K., I know I missed it
The point I mean, I missed it good
And if I could
Good God I would
Now I've seen the way it's headed
Down and down, the truth descended
Have it here and without worry
Baby please, there is no hurry
I'm fine
Stay with me
Play with me
Ego, it's only a soul
Now I see the way I'm headed
Down and down, the youth descended
Hell is here, but it hath no fury
Like this woman still, there is no worry
I'm fine
Stay with me
Play with me
Without warning, brain is burning
