#### 6. Traveller

The life I have  
Is the life I've always wanted  
and there's no more feeling low...  
Early morning, and I'm on the go!  
Here I'm finally on the road...  
On the road!  
And I wanna put my faith in you babe  
But I have to face it in another way  
Let go...free from all  
Now I'm a traveller...traveller...travel around.  
But don't worry baby I need someplace to call my home  
...never worry baby I need someone to call my own.  
RIGHT!  
And I wanna put my faith in you babe  
But I have to face it in another way  
I wanna put my faith in you babe...  
So let go...free from all  
Let go...I'll free fall  
Now I'm a traveller...traveller...(travel around!)  
...traveller... traveller...(travel around!)  
...traveller... traveller...(travel around!)  
...TRAVELLER...TRAVELLER...TRAVEL AROUND!
