I know you've grown to hate me  
Even more then you have grown to hate yourself  
But has it really made a difference?  
Sharing all that hate with someone else

Please tell me are you really happy?  
Do you think he's really worth the pain?  
Tell me are you really happy?  
Or did you simply throw our life away?  
Just to be unhappy

Does he worship and adore you?  
Does he make you feel so beautifully completes?  
Is your life so much better now?  
Or do those same old demons haunt your sleep?

Please tell me are you really happy?  
Do you think he's really worth the pain?  
And tell me are you really happy now?  
Or did you simply throw our life away?  
Just to be unhappy, just to be unhappy

Is he everything you've dreamed of?  
I imagine he is so much more than me  
And I tried to make you happy  
But I believe you thrive on misery

So please tell me are you really happy?  
Do you think he's really worth the pain?  
Tell me are you really happy?  
Or did you simply throw our life away?  
Just to be unhappy, just to be unhappy  
Just to be unhappy, just to be unhappy
