

Yellow Umbrella "New Time Warrior"

Visit "[New Time Warrior](#)" on MotoLyrics.com

There seems to be a new philosophy
War without weapons
The missile is economy
The power of wealth
Our new kings and queens they don't show up they're
acting hidden
But what does it lead to do you think they know?

Why burn the town when you can buy it!

We know that it's wrong but what to do
Using their method. No!
We don't want to fight it
But time is running up
Our new kings and queens they don't show up they're
acting hidden
But what does it lead to do you think they know?

Why burn the town when you can buy it!

Why don't we listen what the wise men say:
"There will be no peace on earth until that day,
We share our wealth and live in brotherhood - Live and
let live!"

Why don't we listen what the wise men say:
"There will be no peace on earth until that day,
We share our wealth and live in brotherhood - Live and
let live!"

Why burn the town when you can buy it!
