You know these past few days  
Have been kind of rough on me  
And these past few weeks  
Have gone up and down you see  
And I've been worrying to much  
Oh so much

But every time you look at me  
Every time it makes me see

The world in colors  
Colors baby yeah  
Come paint my world in colors

You know I feel so alone  
When I sit here on my own  
And I get so down  
Though I know it comes around  
I've gotta give myself a break  
Oh sweet lord

But every time you look at me  
Every time it makes me see

The world in colors  
Colors baby yeah  
And every time you smile I blush  
And every time I feel it's rushed  
The world is brighter  
Brighter baby yeah  
Come paint my world in colors

But come baby  
Oh pretty baby  
Come paint my world in colors  
Oh pretty baby  
Oh sweet baby  
Come paint my world in colors

And the grass grows so green  
It makes it all seem

So very unimportant  
And the trees grow so tall  
It makes me feel small  
And everything is all right  
Oh yeah aoooh

I've been waiting for too long  
Oh so long

And every time you look at me  
Every time it makes me see

The world in colors  
Colors baby yeah  
And every time you smile I blush  
And every time I feel it's rushed  
The world is brighter  
Brighter baby yeah  
Come paint my world in colors

The world in colors  
Colors baby yeah  
And every time you smile I blush  
And every time I feel it's rushed  
The world is brighter  
Brighter baby yeah  
Come paint my world in colors
