# "I Can't Give It Up"

Hey what am I doin
Over here late at night on the sofa
Kissin and touchin
Whisperin in my ear, Got me breathin
Marvin Gaye in the background singin, it aint helpin
Now in this moment candles burnin oh, it's so easy
Got me compromisin with my sexuality
And I know that you and I have got a real good thing
But when I pause, think it over
It aint right, gotta tell ya

[CHORUS:]
I can't give it up
Shoulda never started now we gotta stop (ooooh)
But one day imma put it on ya
So you better get ready for me
I can't give it up
We started a fire gotta blow it out (ooooh)
But one day imma put it on ya
So you better get ready for me

Boy what was I thinkin
When I move like that on your body
Bump and grindin
Cant stop now got you breathin
And you aint in the mood for teasin
Heaven help me
And when the moment candles burnin oh, it's so easy
Got me compromisin with my sexuality
And I know that you and I have got a real good thing
But when I pause, think it over
It aint right, gotta tell ya

[CHORUS]

And you should know
This is really hard for me
Cause when im with you boy
I wanna give you everything
But there's much more
Than a night of ecstacy

I need commitment with a diamond
Then im yours to be your fantasy

I can't give it up
I will be your fantasy
Ooooh

[CHORUS x2]
