Calling on a little shining star
To guide my way, to grant my wish for love
Stop from hiding, show me where you are
I'm reaching out to save you from the dark

Been afraid of chances
And I always have excuses
Risk it off romances
But now I'm ready to stand and ask for love

Come out of the shadows
Can't you see I'm tired of searching all alone
Oh, oh, love, come out of the shadows
Reach out for me, surrender and I'll lead you home
safe in love

Come inside the corners of my heart
At once you was lost, I send you it with tears
I huddled up and played a game of pride
Now I'm reaching out with all I have inside

We both need each other
We are one in a same
So why don't we discover?
It's not too late to stand and hope for love

Come out of the shadows
Can't you see I'm tired of living all alone
Oh, oh, love come out of the shadows
Reach out for me, surrender and I'll lead you home
safe in love

Seek love and true love you'll find
But we'll never know if we never break a vice
And try on love

Come out of the shadows
Can't you see I'm tired of searching all alone
Oh, oh, love, come out of the shadows
Reach out for me, surrender and I'll lead you home
safe in love [Ohh]

Come out of the shadows [Come out, ohhh]
Can't you see I'm tired of searching all alone
Oh, ohh love [Love], come out of the shadows
Reach out for me, surrender and I'll lead you home
[Hey-hey] safe
[Hey-hey] in [Ohhh] love [Love]
Come out [Come out...] of the shadows
Can't you see I'm tired of searching all alone [Love]
Oh [love], oh [Love...] love [Love], come out of the
shadows
Reach out for me, surrender and I'll lead you home
safe in love
[Love] Come out of the shadows [Come out, yeah, see]
Can't you see I'm tired of searching all alone [Hey-hey]
Ohh [Hey-hey], ohh, love [Love], come out of the
shadows
[Heyyyyyyyyyyyyyy]
Reach out for me, surrender and I'll lead you home
[Heyyyyy]
Safe [Ohhh] in love
[Woo] Come out of the shadows
Oooh baby, I'm tired of searching all alone
Oh, oh love [Lo-o-ove] come out of the shadows
