"Falling In Love Again"

Visit "[Falling In Love Again](#)" on MotoLyrics.com

The way things go our love should grow
But it's never quite that easy
And I know deep down in my heart
I took you for granted
But you've always seemed to be right there
Whenever you were needed
You just saw what you wanted to see
But kept on and on believing
You've got me

Chorus:

Falling in love again
Just when I thought of giving up on us
You changed my mind and now I find I'm
Falling in love again
When I was sure we've used all the love
You opened up my eyes
Now I'm falling in love again

I know it seems my foolish dreams
Has sometimes come between us
But the love I'm feeling now
Can last us a lifetime
Though it makes me wonder I thought
I'd last one day without you
Tell me where in the world would I be
If I didn't have you
Now you've got me

Repeat chorus x1

You keep showing me
What matters most of all
Is the way two hearts together
And each storm we'll last forever

Repeat chorus till fade
