You got that devil's walk, that cool persuasive talk  
Sending me to fall  
Those Valentino eyes have got me hypnotized  
Giving you my all

Oh, it feels like heaven here alone with you  
But what you've got me doin' things you'll never do

Guys like you, like you, baby  
Give love a bad name  
You'll just go and take my love and then  
Guys like you, like you, baby  
Give love a bad name  
You'll just break my heart, you'll never change

Guys like you, like you, baby  
Give love a bad name  
And girls like me feel the pain  
Ooh, ooh

You're hot and cold too much  
There's nothing real to touch  
Even though I try  
You take my love and split  
You broke my heart to bits  
Nothing's left inside

I can see your future, you're just holding on  
But now that good-for-nothing is as good as gone

Guys like you, like you, baby  
Give love a bad name  
You'll just go and take my love and then  
Guys like you, like you, baby  
Give love a bad name  
You'll just break my heart, you'll never change

Guys like you, like you, baby  
Give love a bad name  
And girls like me feel the pain  
Ooh, ooh

I thought that both of us were tryin'  
But all you've done is leave me cryin'

You'll just break my heart

Guys like you, like you, baby  
Give love a bad name  
You'll just go and take my love and then  
Guys like you, like you, baby  
Give love a bad name  
You'll just break my heart, you'll never change

Guys like you, like you, baby  
Give love a bad name  
You'll just break my heart, you'll never change  
Guys like you, like you, baby  
Give love a bad name  
Whoa, yeah, yeah

Guys like you, like you, baby  
Give love a bad, love a bad  
Guys like you, like you, baby  
Give love a bad, love a bad
