"One More Night"

Visit "[One More Night](#)" on MotoLyrics.com

baby, it's strange how things go down
how every circle comes around
nobody went, but everyone came
you and I standing here again
thinking about what might have been
ready to go our separate ways

CHORUS:

one more night
we could (should) have been in love
one more night
we could (should) have stay in love
I guess we ask
for more than we ever get
but I would give the world
baby, if I could say
what we had for one more night

funny when things that don't seemed clear
where are we gonna go from here
you without me and me without you
somehow I prayed the days won't end
and when the darkness comes again
don't believe I'll make it through

[CHORUS]

it might have made it right
if I could turn back the time
for you and me
baby, we wouldn't have to be
ohhh

[CHORUS x2]
