Don't build me up just to let me down
This time I want the big brass ring
We got the mood
We got all the trimmings
To make this night a special thing

So many times
I've been a victim of goodbye
But I see a lasting gleam in your eyes

Darling, take me all the way
Take me all the way to love
Don't stop halfway
Promise you'll stay for the finish
Take me all the way
Take me all the way to love
Be good to my heart
Make this the start of forever, love, Oh... oh...

I lay my love on the line for you
'Cause I've got a hunch you write for me
So pour the wine
And whisper your magic
We're on our way to ecstasy (Ooh... ooh... ooh...)

I'm trusting you with all I have inside of me
(Inside of me, baby)
But don't just lead me on and set me free

Darling, take me all the way
Take me all the way to love
Don't stop halfway
Promise you'll stay for the finish
Take me all the way
Take me all the way to love
Be good to my heart
Make this the start of forever

Yesterday, I compromise my heart
Giving in for getting all your needs
But now I want your better false alarm

It's real love I want endlessly

Take me all the way
Take me all the way to love
Don't stop halfway
Promise you'll stay for the finish
Take me all the way
Take me all the way to love
Be good to my heart
Make this the start of forever

Take me all the way
Take me all the way to love
Don't stop, don't stop halfway
Promise you'll stay for the finish
Take me all the way
Take me all the way to love
Be good to my heart
Make this the start of forever

Take me all the way
Take me all the way to love
Don't stop, don't stop halfway
Promise you'll stay for the finish
Take me all the way
Take me all the way to love
Be good to my heart
Make this the start of forever
