(Narada Michael Walden/Corrado Rustici)

Chorus:

You know I like it
When you're here
You tell me I am the one
You know I like it
When you hold me in your arms, alright!

Everyday
I die for your affection
But you push me away
You don't care
That I feel this attraction
When you're close to me
Everynight
An endless river's flowing
Through my eyes over you
Can't you see
I would steal the moon, babe
For your love, to be mine, Heh!

Repeat Chorus twice

Time is right
To open up your heart, babe
Put a stop to your lies
Now confess
Tell me that you need me
By your side, forever

Chorus
