All alone
In the dark, I was crying
Helplessly, I wondered through the night

But your eyes
They reached out and touched me
Then I saw the light like never before

'Cause you take me to heaven inside your love
Way up with the stars shine forevermore
You take me to heaven inside your love
Keep me in your heart, always loving you

And I know
What it's like to be lonely
And I know I don't wanna let you go

'Cause you take me to heaven inside your love
Way up with the stars shine forevermore
You take me to heaven inside your love
Keep me in your heart, always loving you

The hurt inside has all blown away
Ooh-ooh-ooh-ooh-ooh
Oh baby, be mine
Darling, I'll let you stay, stay by my side
My side, ooh

You take me to heaven inside your love
Way up with the stars shine forevermore
You take me to heaven inside your love
Keep me in your heart, always loving you
Loving you
