Remove your halo girl  
its hard to touch you like that  
but keep the wings on girl  
i cant not like you like this

he comes the high beams now  
signaling the end of your tenure here  
i wont miss you darling  
i promise not to shed a tear  
i cant deny my actions this time  
cause your sex was so sincere

dont say dont say you love me tonight  
cause i barely know you  
but im sure to know the curves of your body

the next one she wont be like you  
she may intricate tatoos  
she may have nails just like kitchen knives  
or icicles where once were eyes  
she wont be like you  
oh no she wont be like you

dont say dont say you love me tonight  
cause i barely know you  
but i (but i) im sure to know the curves of your body

the next one she wont be like you  
she may intricate tatoos  
she may have nails just like kitchen knives  
or icicles that once were eyes  
she wont be like you  
oh no she wont be like you

OH

at least youre always on the moment  
where our bodies were one symetric shape  
and my eyes were as wide as dinner plates  
we kiss through moaning lips, we kiss through moaning  
lips

at least youll always have this

mark your territories  
in detail fashion  
relay this story  
be sure not to forget the part  
where you wore me out  
you wore me out(x6)  
as you wore me out

cause you wore me out  
cause you wore me out
