Ooh oh, oh, baby baby

You're so much different from the rest,
mmm
Because in me you found my best
You can turn to me in time of need
Satisfaction's guaranteed

You don't need money
to be my honey!
oh listen now

Money, money, you don't need it honey
Ya Can't get far with a fancy car,
No no
I miss my honey

What's up with this?
You've changed my world with just one kiss
And now you think that i need more
But if you really knew me
You'd know just what I'm look for

Money, money, don't need it honey
Ya can't get far with a fancy car,
oh, I'm missin my honey!

All I need is your love
yeah yeah

(giggles)
