There's no me without you  
Don't know what I would do  
You're my heartbeat, I'm breathing because of you

There's no world without us  
Dreams would turn into dust  
You're the reason, the reason I make it through

Feels like I'm flying, like if I had wings  
Like I am sailing on a sea of dreams  
You're love is pouring down on me  
You're my waterfall

In a moment like this  
I'm in a state of bliss  
I'm swept away, I look into an open sky

Feels like I'm flying, like if I had wings  
Like I am sailing on a sea of dreams  
You're love is pouring down on me  
You're my waterfall

My heart is higher than the highest kite  
I feel how all your love surrounds me  
Standing in the waterfall

Like I am sailing on a sea of dreams  
You're love is pouring down on me  
You're my waterfall

Feels like I'm flying, like if I had wings  
Like I am sailing on a sea of dreams  
Your love is pouring down on me  
You're my waterfall
