Follow You
(Follow You, Follow You, Follow You)
Follow You
(Follow You, Follow You, Follow You)
I will follow you
(Follow You, Follow You, Follow You)

It's so I'm always close to you!
Into the dark
I wait while the questions bleen
They tear me apart
So I get them before they get me

I Know I Ask too much
Don't wanna wait 'til You've answered me
But we don't have to speak, No!
'Cause watching You is all I need

Follow You
(Follow You, Follow You, Follow You)
Follow You
(Follow You, Follow You, Follow You)
I will follow you
(Follow You, Follow You, Follow You)

It's so I'm always close to you!

How many words,
Must be spoken 'til the truth is out?
How many wounds,
Are re-opened when you move your mouth?

You make the rules
The walls, I want to break them down
'Cause I need you close
Even when you don't know I'm Around

Follow You
(Follow You, Follow You, Follow You)
Follow You
(Follow You, Follow You, Follow You)
I will follow you
(Follow You, Follow You, Follow You)

It's so I'm always close to you!

I Need You Please
I Need You Please
I Need You Please

Follow You, Follow You Now!

Follow You
(Follow You, Follow You, Follow You)
Follow You
(Follow You, Follow You, Follow You)
I will follow you
(Follow You, Follow You, Follow You)

It's so I'm always close to you!
