You, in your shell
Are you waiting for someone
To rescue you from yourself?
Don't be disappointed
When no one comes

Don't blame me, you didn't get it
Don't blame me, you didn't get it
Don't blame me, you didn't get it

I already told you
That falling is easy
It's getting back up
That becomes the problem
Becomes the problem

If you don't believe
You can find a way out
You become the problem
Become the problem

You, all alone
Are you waiting for someone
To make you whole?
Can't you see
Aren't you tired of this
Dysfunctional routine?

Don't blame me, you didn't get it
Don't blame me, you didn't get it
Don't blame me, you didn't get it

I already told you
That falling is easy
It's getting back up
That becomes the problem
Becomes the problem

If you don't believe
You can find a way out
You become the problem
Become the problem

I already told you
That falling is easy
It's getting back up
That becomes the problem
Becomes the problem

If you don't believe
You can find a way out
You become the problem
Become the problem

Falling is easy
It's getting back up
That becomes the problem
Becomes the problem

And if you believe
You can find a way out
Then you solve the problem
You solve your problem
