You in your shell
are you waiting for someone to rescue
you from yourself
don't be disappointed when no one comes

Don't blame me
you didn't get it
Don't blame me
you didn't get it
Don't blame me
you didn't get it

I already told you that falling is easy
it's getting back up that becomes the problem
becomes the problem
If you don't believe you can find a way out
you become the problem
become the problem

You all alone
are you waiting for someone to make you
whole
can't you see
aren't you tired of this dysfunctional routine

Don't blame me
you didn't get it
Don't blame me
you didn't get it

Don't blame me
you didn't get it

I already told you that falling is easy
it's getting back up that becomes the problem
becomes the problem
If you don't believe you can find a way out
you become the problem
become the problem

I already told you that falling is easy
it's getting back up that becomes the problem

becomes the problem
If you don't believe you can find a way out
you become the problem
become the problem
Falling is easy it's getting back up
that becomes the problem
becomes the problem
And if you believe you can find your way out
then you've solved the problem
you've solved your problem
