I can't believe  
how far I've come  
I've watched me stumble  
and come undone  
If you take away  
these memories  
all that's left  
is just me

Cause I don't want this  
And I don't need this  
And I don't feel this  
It seems that even though she's with me I can't shake  
this  
And I can't fake this  
And I won't take this  
anymore

So you choose  
to break my heart  
I should have seen this  
from the start  
I'm haunted by  
your apathy  
All that's left  
is killing me

Cause I don't want this  
And I don't need this  
And I don't feel this  
It seems that even though she's with me I can't shake  
this

And I can't fake this  
And I won't take this  
anymore

If you believe  
that the way you choose to be  
I've always had to see  
the brighter side of this so I don't lose my faith  
Now the sun has gone away

It's getting colder every day  
So before I freeze to death there's something I should  
say

I don't want this  
And I don't need this  
And I don't feel this  
It seems that even though she's with me I can't shake  
this  
And I can't fake this  
And I won't take this  
Though you say you understand you still won't face this  
Can't erase this  
I won't embrace this  
anymore
