[Verse 1]

Hip hop welcome out
I be whoopin' ass like my belt was out
Just for the record, I don't smoke
But I might light it up if I was down at Michael Phelps's
house
I'm just a young kid raised on a rough block
Where the number one phrase is "f*ck cops"
And we all carry blades and buck shots
But I'm tryna make a change before my luck stops
Drink triple, see double, act single
That's the motto of the generation that I hang around
with
Who the hell gon' do the right thing
In a world full of trouble, man I feel like I'm surrounded
My name is the one you found
And I owe my fame to the underground
If you're chasing dreams you gotta run 'em down
But take a break for a minute, it's the summer now
Come on

[Hook]

Sometimes I feel like, lending you a hand
Come with me tonight
Cause I'ma set you free tonight, girl
Sometimes I feel like, I don't give a damn
Run with me tonight
I'm giving you the key tonight, to my world
And it feels alright, and it feels okay
Cause I don't give a f*ck anyway
Sometimes I feel like, I don't give a damn

[Verse 2]

I shine baby kiss the light
And every single morning is a gift of life
I fly through the sky never miss a flight
Now every single girl calls me Mr. Right, I'm like woah,
When it comes to speed of women I like slow
Never know who else these women just might know
So many brothers out there actin' like they never heard
The story 'bout Billie Jean and Michael

I suppose the money owns you
You don't own it, like you're supposed to
You don't know sh*t, let me coach you
Just don't quit, but I told you
My name is the one you found
And I owe my fame to the underground
If you're chasing dreams you gotta run 'em down
But take a break for a minute, it's the summer now
Come on

[Hook]

Sometimes I feel like, lending you a hand
Come with me tonight
Cause I'ma set you free tonight, girl
Sometimes I feel like, I don't give a damn
Run with me tonight
I'm giving you the key tonight, to my world
And it feels alright, and it feels okay
Cause I don't give a f*ck anyway
Sometimes I feel like, I don't give a damn

[Bridge]

This is my heart and soul, my life is all I know
So it's been nice that I could also see my money grow
This is my heart and soul, my life is all I know
So it's been nice that I could also see my money grow
This is my heart and soul, my life is all I know
So it's been nice that I could also see my money grow
This is my heart and soul, my life is all I know
So it's been nice that I could also see my money grow
Grow, grow, grow, grow, grow, grow, I've grown
Grow, grow, grow grow, run with me tonight
I'm giving you the key tonight, to my world
