Damn I dream, damn I dream
So many dreams that I could pick 'em
In fact when someone dream one dream I've already
dream up six
Here record on this classe it'm me '
And I'm already at the middle of the story and I'm steel
stack on the preface

Chapter one it's 'bout holding up even in those days
That I hold you down, now push you girl with no this up
..real friends, real friends bless it if you'll find
Cause chasing dreams it 'aint to easy to keep real
friends around
On suddenly got fight with things that no one got argue
about
Holding out this ultimatum like are you in nigga or are
you out
Cause I 'aint got no time for this if you 'aint go my
focuses
Cause it's from my childhood but my childhood was a
broken one
Cause nothing it's what it's seems
I show you what mean
My full paper it's a pocket for dreams
I hope that I could make this someday
I just wanna make this some way
Cause nothing it's what it's seems
I show you what mean
My full paper it's a pocket for dreams
I hope that I could make this someday
I just wanna make this some way
So many people have forgotten how to dream
I guess that's way they loving when I walk up on the see
If you looking at me funny like you don't know what I
mean
Well fuck you man I show you what I mean
We was those over talks and over ..
,
City to city traveling try to be that inspiration
,
For those that using dreams for illumination ..

And behind me and below me and all around
But higher you climb up to the hard it is when you
falling down
Cause nothing it's what it's seems
I show you what mean
My full paper it's a pocket for dreams
I hope that I could make this someday
I just wanna make this some way
Cause nothing it's what it's seems
I show you what mean
My full paper it's a pocket for dreams
I hope that I could make this someday
I just wanna make this some way
My dreams 'aint stopping and I'm no give up, I'll do
whatever
My dreams 'aint stopping and I'm no give up, I'll do
whatever
So I look about the top
Standing at the bottom, turn on my clue, tell 'em that I
got 'em
My dreams 'aint stopping and I'm no give up, I'll do
whatever
Cause nothing it's what it's seems
I show you what mean
My full paper it's a pocket for dreams
I hope that I could make this someday
I just wanna make this some way
Cause nothing it's what it's seems
I show you what mean
My full paper it's a pocket for dreams
I hope that I could make this someday
I just wanna make this some way
Cause nothing it's what it's seems
Yees nothing it's what it's seems
Cause nothing it's what it's seems
Yeeh nothing it's what it's seems
