"Bullet Proof"

What is your life worth? ...or peace of mind
What is worth to know that you can survive
Even your soul flows through the barrel of a gun
Even your heart sinks into the blood of the ones

Sickness of centuries taking the soul of humanity
Without living any second

Hands of humanity washed by the blood of the nameless
Spend your life instead of living

Bullet proof, necessary for living
Simple... a reason of advantage

When death comes... there's no doubt
"your satisfaction is guaranteed"

How can man wash his hands with blood?
The blood of another, the shame of god

Created a life for a child to build to destroy
The blood of the younger, the shame of god

When shame is on you
Proof is the blood
When shame is on you
Power is your blood
When shame is on you
Blood is the proof
God is necessary
When shame is on you
Now the shame is on god...
