"Ween - the rainbow"

Visit "[Ween - the rainbow](#)" on MotoLyrics.com

Many colors in the homo rainbow
Don't be afraid to let your colors shine
Many colors in the homo rainbow
Show me yours. I'm gonna show you mine

If you find a pot of gold
Every little thing is gonna work out fine
In the homo rainbow

Many colors in the homo rainbow
You give me shade from black to yellow
Many colors in the homo rainbow
A warm embrace and a kind-a hello

If you find a pot of gold
Every little thing is gonna work out fine
In the homo rainbow

If you find a pot of gold
Every little thing is gonna work out fine
In the homo rainbow
Every single color, every walk of life
In & out changin, every day and night
From the golden shores of Kansas, to the middle of
Japan
reach inside your soul and learn your fellow

There are many colors in the homo rainbow
Don't be afraid to let your colors shine
Don't be ashamed of what God made you
