Don't sail away,  
Don't call my name.  
(I'll be right there waiting)  
I'll see you on another day,  
So far from this place.  
(I can find my own way)  
I see your face,  
In the back of my mind.  
(A perfect picture painted)  
Everytime you walk away  
(My heart stopd beating)

(Chorus)  
You say hello,  
You say goodbye.  
You Look at me  
Like I'm just another guy.  
Just turn away,  
Don't even wave.  
I bet that you  
Don't know my name.

(Breakdown)  
And all I want  
Is to be with you.  
That's all I dream of.  
All I want  
Is to know the truth.  
What did I do so wrong?

(Chorus)  
You say hello,  
You say goodbye.  
You Look at me  
Like I'm just another guy.  
Just turn away,  
Don't even wave.  
I bet that you  
Don't know my name.
