lubesc doar chipul tau si privirea ta
As vrea sa pot schimba ceva acum in viata ta
lubesc doar chipul tau si privirea ta
As vrea sa iti arat acum ce-nseamna dragostea.

I:

When I saw you
You smiled at me
Your look followed me,
My heart started to beat louder
Your eyes were whispering
'You know that I want you'
Just a moment was enough
I've never loved again since then.

Refren:..

lubirea mea...

II:

I want to whisper to you that I love you a lot
But you touch me and I go crazy
When I'm with you I'm melting
I just love your eyes
I feel how they desire me
In them I always lose myself
though I find myself in them.

III:

I want to whisper to you that I love you a lot
But you touch me and I go crazy
If you knew how much I love you
